key/item intelligent management solution supplier

Our Advantages

Founded in 1999, LANDWELL is one of the outstanding international companies engaged in R&D, production and sales of intelligent key cabinets for 23 years. As a globally well-known company in this industry, leading the development of the domestic intelligent key management industry.

Our commitment is to maintain excellent standards of quality through respect for our employees and partners. We place great value on our strong relationships with business partners, clients and colleagues, which are developed through professionalism and integrity while supporting a culture of continuous growth.

LANDWELL brand is sold to more than 100 countries and regions around the world, and it is one of the most influential companies in this industry in the world.

More than 20 important cities domestic and foreign have established direct branches and service centers to provide faster, more efficient and more assured satisfactory services to global users.

In 2015, Ningde Nuclear Power adopted Landwell Intelligent Key Management System

Secure your keys and assets

Our smart key cabinet system can protect the safety of users' belongings, and it cannot be used without authorization

Access Control

It determines who can use these items at what time

Accountability

All operations are recorded and they are solely responsible for the safety of the items they use

Reduce malfunction time

Keep your keys where you need them most, and access anytime, anywhere

Collect important data

Every user and item usage is recorded, and generate a record of the use of valuables

Promote the development

Reduces administrative overhead and provides optimal control of critical processes
